OTHER SKILS

- IT Essentials
- Teamwork
- Prototyping
- Research
- Data analysis

SUMMARY

Professional in Computer Systems Engineering with basic knowledge in frontend and intermediate knowledge in backend, SQL database administration, NoSQL database, and requirements design and modeling.

EDUCATION

Centro Cultural Costarricense Norteamericano - CCCN
2016 - 2018

- 12 completed levels
- TOEIC B2 - Total Score: 805

Universidad Fidélitas

Bachelor's Degree in Systems Engineering
2018-2021

- Completion of engineering courses.
- Development of final bachelor's degree project:
  - Analysis and modeling of requirements
  - Development using Magento tool
  - Implementation on Azure
- Basic knowledge:
  - Frontend Development
  - NoSQL - MongoDB
  - Data analysis- R
  - Power BI.
  - Cybersecurity
- Intermediate knowledge:
  - Backend Development
    - ASP .NET Core
  - SQL Server

Licentiate's Degree in Systems Engineering
2021 - 2022

- Creation of a strategic plan for SMEs.
- Prototyping with tools such as:
  - Pencil
  - Balsamiq Mockups
- SRS documentation:
  - Scope
  - Risks
  - User stories
  - Use cases
- Formulation and evaluation of ICT projects.
